MINNEAPOLIS (AP) — The man in the middle of the bitter labor dispute between NFL owners and players is rarely happier these days than when he is carefully sliding a 40-pound rock down a 150-foot sheet of ice toward a painted target, with sweepers furiously brushing the path and steering the stone toward the middle. Magistrate Judge Arthur J. Boylan was introduced to curling a few years ago, and can be found at one of two curling clubs in St. Paul three nights a week. Somehow it makes sense that one of most respected mediators in the country has become enamored with a sport that demands quiet concentration and a delicate touch to keep the game from spinning out of control. But Boylan's son says it is the social nature of curling that appeals to the judge, even more than the strategy and patience required of something nicknamed "chess on ice." "The actual game is precise," Art G. Boylan said. "But I think it's the very collegial atmosphere that he really likes. During the games everyone on both teams is spending time together. He just enjoys it."

There are no riots/problems on the islands, although many hotels and restaurants etc are now closed for the winter and the weather wont be as hot. Not sure you can get direct flights to Corfu after October, like many other islands it's a seasonal resort from May-October. There are lots of beautiful places to visit in Greece this time of year, just don't expect beach weather!
