Local storage just works until it doesn't. No storage medium is perfect. 'The Cloud' should be used in conjunction with local storage. I prefer the cloud when I'm on the go since I see no reason to walk around with 4TB of data when I just need a few hundred songs. convert quicktime to wmv Hmmm I think if I can i will get a white and sell my black one just to increase to 32 from 16. I am getting close to filling my current phone!
