The bigger screens are nice but for some people who are always on the go the smaller form factor is a plus. I have a galaxy tab and it's nice that I can put it in my pants pocket and keep moving. Ipad would require a bag or for me to manually tote it. Not cool convert avchd C'mon people! Where in the post does it say that the bold is a copy of iPhone 4?? Only the commentary is blowing this out of proportion. Do you guys have something on your chest or is this just the people of NoHumourVille laying their turds all over decent internet? I bet it's both.
