How about this it worked for me and is less of a hassle than a restore. Settings>Reset>Reset All Settings. It helps alot and other than redoing your passwords and a few other things it does nothing to what u have on the phone but it speeds it up drastically cda to mp3 Just don't upgrade until an untethered jailbreak is available. I'm still running untethered, jailbroken 4.1 and don't feel any desire to upgrade ½½ not sure I'll go to the trouble even when an untethered 4.2

becomes available. I don't see anything the upgrade would give me that I want and can't get already through a jailbreak app.
