---

a Tay province is not only famous of its pagodas, temples, communal houses but also famous of its many handicraft villages. Our Red River tour brings you to root of the culture in the Red river Delta: The rice culture and its numerous handicraft villages. Those are Van Phuc " silk village, where the best silk in Vietnam comes from, Chuong village - where the conical hat is made, Uoc Le village - where you can see one of the most beautiful village gate in Vietnam and Dau pagoda - one of the most famous pagoda which was built in 11th century.

Hanoi - Van Phuc - Chuong Village - Uoc Le Village - Dau Pagoda

### Details & hotel

#### Morning:

8:00 The bus picks you up at hotel then brings you to a village 30 km away from Hanoi. On the way, visit Van Phuc " silk village, where the best silk in Vietnam comes from. Stay here about 30 mins, visit some silk hand-making families, listen to the story of the village.

9:00 Leave Van Phuc for Chuong village. Visit Chuong market, Bell, Floating bridge and a family making conical hat.

10:00 Leave Chuong village to Chi Le. Short stop before the bridge for the story of the house gate in the middle of the river. Visit Chi Le communal house and then a family making hats.

11:00 Visit Uoc Le village, 2km walking through village, visit the church, communal house with the village's well. Stop in front of the Uoc Le village's gate. Lunch in Uoc Le, in a village's house or on the market. Rest.

#### Afternoon:

13:00 Heading to Dau pagoda. According to the stele literature built and prepared in Duong Hoa king year the fifth generation, this pagoda was prepared and built in Ly Dynasty (the 11th century). This pagoda is now famous for the two embalmed bodies of Buddhist monks from 17th century.

Walk around the village then at 14:30 leave the village for back Hanoi.

16:00 Arrive in Hanoi. End of the tour.

Y would anyone want an iPad to begin with. Even my thunderbolt from Verizon has more RAM and ROM then either iPad or iPad 2.. What a joke. They need to include on the next Apple products the option to include external memory slots, it should include DLNA technology without third party apps, and with less restrictions on there customers. Apple needs to catch up. Seems like technology is moving so fast, that when Apple thinks its finalized its product for production, something new hits the markets that they want implemented in their old idea, like 3D. how to convert vob to mpeg As soon as I get my iPhone 4 I will have a BOOKback on mine. Don't care about the white as no one else should
